

# Equipment Application Report

## Rotary Screen UV Flexo

The Telstar UV Flexo Stack Unit prints rotary screen on a 13" custom die cutting press. The UV flexo print head interchanges with the screen unit in a matter of minutes. It prints from 9" to 24" and features an easy to change anilox roller and an enclosed chamber doctor blade. These print units are engineered with the capability of stacking up to three units tall and can be retrofit to any type of converting press.
